# WHETHER IT'S OLD

HOME IS WHERE

THE HEART IS.

The traditions of I. C. Norcom aren't just within these hallowed walls. To Mr. Neal, the traditions of the school affect the legacy of the many generations that have attended Norcom and the community as a whole.

The strength and intensity of the Greyhound Pride is the most important and valuable tradition here at Norcom according to Mr. Johnson. This is something new to Mr. Johnson, a Norfolk native.

Mr. Saunders believes that tradition is created as we convey our remembrances of current events to those who follow and expect to experience the effects of future similar events. Hence, the tradition of Norcom will continue to be savored by generations to come.

When asked to comment on the importance of tradition, Mr. Taylor replied, "Tradition has its value, and in my opinion, it gives insight into Norcom's past. It provides the foundation of essentially who and what we are."

Mr. Taylor went on to discuss the impact being felt by the Standards of Learning in our school. "The SOL's are a great way to test knowledge. It is our plan to implement a 4x4 schedule for Honors students, and an AB schedule for all others in order to by pass the problem of the time in which the SOLs are given. We feel that this new schedule will give the students the amount of time needed in order to learn all the tested information."

Finally, Mr. Taylor commented on the changes occurring here at Norcom. I. C. Norcom has been in transition since 1998. This transition will probably continue to occur until 2010. When the two potent forces of Standards of Learning and No Child Left Behind are in full effect, we will see the future direction of education; not only for our school, but for Virginia.
